ABOUT ME

I am a Development Economist specializing in applied microeconomics, econometrics, and impact evaluation. My research interests lie in the economics and political economy of education, health, basic service delivery, community-driven development, water infrastructure, labor market participation, and social capital in Sub-Saharan Africa. I have extensive experience in designing and implementing large-scale surveys, conducting stakeholder interviews, and applying mixed-methods research that integrates rigorous quantitative analysis with qualitative fieldwork to generate policy-relevant evidence.

EDUCATION

Université Paris-Dauphine - PSL, LEDa, DIAL-IRD | Paris, France 2021 - 2026

Ph.D Candidate in Economics (PhD Pre-Defense completed on July 17, 2026; Final Defense expected in December 2026.)

Dissertation: *Improved Water Infrastructure and Households' Living Conditions in Sub-Saharan Africa: Lessons from Peri-urban Kinshasa, Democratic Republic of Congo (DRC).* **Advisors:** Flore Gubert & Camille Saint-Macary.

Scholarship: Doctoral scholarship from the French Research Institute for Sustainable Development (IRD), December 2021 - February 2025.

Université Paris 1 Panthéon Sorbonne - IEDES | Paris, France 2016 – 2018

Master in Development Economics, Major in Economic expertise of development programs and policies.

Université de Lomé, Ecole Supérieure d'Agronomie, ESA-UL | Lomé, Togo 2004 – 2010

Agricultural Engineer, Major in Agricultural economics and rural sociology.

EXPERIENCE IN RESEARCH

Ph.D Candidate in Economics, Université Paris Dauphine-PSL, LEDa, DIAL-IRD | Paris Since Dec. 2021

Three research projects in water economics and community-led management, with a focus on household behavior, the impacts of water infrastructure, and social capital.

- Conducted qualitative field research on water users association networks governance, household water access and satisfaction in eight peri-urban districts of Kinshasa, DRC, in June 2022.
- Visiting PhD Research Fellow at the École Nationale Supérieure de Statistique et d'Économie Appliquée (ENSEA), Abidjan, Côte d'Ivoire - July–December 2022; April – December 2023; and July 2024 – January 2025.

Research Assistant, French Research Institute for Sustainable Development (IRD) | France & RDC 2020 – 2021

PILAEP2 research project: Impact evaluation of WASH program in the Outskirts of Kinshasa (DRC). **Principal investigators:** Flore Gubert, Camille Saint-Macary, Virginie Comblon, and François Roubaud.

- Design of questionnaires for household and water points censuses, and household survey; recruitment and training of enumerators.
- Field coordination and supervision of the third round (second follow-up) in 2020 and the fourth round (endline) in 2021 of the survey « Eau-Assainissement et Conditions de Vie des Ménages (EACV) » in ten (10) peri-urban districts of Kinshasa in DRC.
 - Managing the daily work of a team of 80 field enumerators (enumerators follow-up, survey reports, field and survey equipment preparation, etc.).
 - Cooperating with local implementation partners in the government and civil society.
 - Handling communications with local stakeholders and principal investigators.
 - Regular monitoring of project databases to maintain and improve accuracy and consistency of data collection.
 - Preparing weekly progress reports and briefings to keep principal investigators informed of developments in the field.

- *Data cleaning and analysis; generating descriptive statistics and econometrics estimations tables for the impact evaluation, and participating in the report writing.*

Research Assistant, Research Laboratory on Poverty and Sustainable Food Security, Université de Lomé, Ecole Supérieure d'Agronomie (LARPSAD, ESAL-UL) | Lomé, Togo 2010 – 2012

Work on various projects related to rural and agricultural development: Literature review, questionnaires design; Field-based research activities coordination; Data collection, cleaning, and analysis; Providing descriptive statistics and participating in report writing; Supervision of bachelor's students' theses. **Supervisor:** Prof. Egnonto M. Koffi-Tessio.

Research Assistant, AfricaRice, Policy and Impact Assessment» program | Benin & Togo Oct. 2009 - Jul. 2010

Research on the "Determinants of rainfed rice production in the Participatory Varietal Selection (PVS) areas of Danyi in Togo." **Supervisors:** Prof. Egnonto M. Koffi-Tessio & Dr. Aliou Diagne. Intern for the Agricultural Engineer degree thesis.
